

April 13, 2018

Dear Rank Advancement Committee,

On April 6, 2018, I attended the spring conference of ATE-K and participated in Jill Gonzalez-Bravo's session on Innovation Integration. The topic is one that we, in my education division, regularly discuss and examine, looking for ways to strengthen our knowledge, understanding and integration so that we can further assist our candidate's development.

During the session, Jill presented, explained, shared, and invited our interaction and questions, she responded to our questions and just in general modeled good instruction and engagement.

I was so pleased with the clarity and potential usefulness of the information in my setting, I sent her a follow up email to which she promptly responded and willingly shared her presentation information-links, examples, card sort and all- with me! I appreciate her willingness to share and thus support other teacher educators.

I hope this information is useful in considering her rank advancement. If I could be of further support or if you have other questions I might answer please feel free to contact me.

Sincerely,

Sheryl L. Erickson
